The Waterfall Laxmi Kali Shiva Temple provides religious, spiritual, educational, social and cultural activities for all generations of the Hindu community. The purpose of the temple is to enhance the link between man and divinity. This is done through the worship of Hindu deities, understanding spiritual principles and assisting devotees on their spiritual destination. Besides providing a place of devotional practice, the temple aims to be a centre of learning of dharma (righteous conduct). This involves learning principles and practicing them through charitable acts. The temple is a conduit for organising feeding events and grocery distribution to the needy communities. It also provides spiritual, material and mental support to its devotees.
